Interpretation / Interprétation:

There is no evidence of fecal contamination. If the results show the presence of coliforms it may be indicative of a contaminated water supply. Given the susceptibility of well water to external influences, it is important to test water frequently. Consult local health unit for information if required.

Il n'y a aucune preuve de contamination fécale. Si les résultats indiquent la présence de coliformes, cela peut être révélateur d'une source d'eau polluée. L'eau des puits étant susceptible d'être dégradée par des facteurs externes, il est important de la faire analyser fréquemment. Consultez le bureau local de santé publique pour plus de détails, si nécessaire.

The results apply to the sample as received/Les résultats s'appliquent à l'échantillon, tel que reçu.

These results relate only to the sample tested. / Le résultat obtenu se rapporte seulement à cet échantillon d'eau analysé.

Note : This water sample was only tested for the presence of both Total Coliforms and E. coli (ISO/IEC 17025 accredited tests) bacterial indicators of contamination by Membrane Filtration. The sample was not tested for other contaminants, including chemical contaminants, and therefore may be unsafe to drink even when there is no significant evidence of bacterial contamination. Contact your local public health unit for information on testing for other contaminants./ Remarque: Cet échantillon d'eau n'a été analysé que pour détecter (par un laboratoire accrédité conformément à la norme ISO/IEC 17025) la présence des coliformes totaux et des bactéries colibacillaires, indicateurs de contamination par filtration sur membrane. L'échantillon n'a pas été testé pour d'autres contaminants, y compris les contaminants chimiques et, par conséquent, l'eau peut être impropre à la consommation même lorsqu'il n'y a aucune preuve significative de contamination bactérienne. Veuillez communiquer avec le bureau de santé publique de votre localité pour vous renseigner au sujet de l'analyse visant à détecter la présence d'autres contaminants.
